Comments of opponents of Senator Clarke after the caucus, however, showed that though the vote was made unanimous on motion of the defeated candidate.

Efforts of Clarke's oppone ts to force Joe a promise from him that, if elected, he would not interfere with administration measures, drew forth the scorn of Mr. Gore, the blind Senator from Oklahoma. Mr. Gore demanded promises from Senators Stone and Reed, who asked pledges from Mr. Clarke, that before they votad to confirm any appointment by the President they should inquire what the candidate proposed to do after taking office, and see to it that he would agree to do only the things that suited them. He urged, that is the future Federal in the future federal would not interfere with administra-

that a man had a right to his own convictions on a question so foreign to normal Democratic doctrine.

The position of Mr. Newlands was that the government operation of ships was an advanced step in state socialism to which the Democratic party had never committed itself; that, on the contrary, the party had always stood for a sturdy individualism with equal opportunity to all. He said that while many Democrats, himself included, had favored this and other measures enlisting the activities of the government in some things hitherto conceded to belong to private enterprise, the national party had never yet declared itself regarded as questions. He held that no Democrat should be penalized who held fast to the ancient party traditions, and that the defeat of Mr. Clarke would be regarded as punishment for the exercise of his independent judgment as a Senator on a matter not within the domain of party faith, and for that reason he was unwilling to vote against him.

Petty thefts at Public School 6, Smith and Baltic streets, Brooklyn, extending over a year and accounting for the disappearance of lunch baskets, jewelry, and even teachers' salary checks, were explained yesterday, detectives from the Seventh Branch Bureau say, by the arrest of four pupils.

Thereas Hill, aged fourteen, of 474 Baltic Street, is said to have confessed that she is the leader of the gang that committed the thefts. Her companions, all charged with juvenile delinquency, are Fitzgeraldo Gesta, negro, aged twelve; Fred Parker, negro, aged ten, and Antonita Flora, eight years old.

Complainants against the children are two teachers, Miss Hattie Hall, of 135 Remsen Street, Brooklyn, who lost \$10 in money, and Miss Edwina Valentine, of 803 Sterling Place, Brooklyn, who reported the theft of her salary check for \$59.

Congratulations

During the week now ending celebrations have been held in many places in recognition of the extent to which electricity contributes to the industrial supremacy, the general welfare and the prosperity of our country

This week also marks the close of the great Panama-Pacific Exposition, with its wonderful illuminations and where electricity in countless ways has shown how, in the public service, it enters into every phase of modern life

New York has an electrical service which in variety and extent exceeds that of any city of the World. It is intended for every one, whether the want be large or small. It is for the greatest structure using thousands of lights and horse-power, to the smallest consumer with a single lamp or a fractional horsepower. The standard for the largest is the standard for the smallest - and for all

Our congratulations are extended to those who have so successfully brought to the attention of the public this great modern agent of universal service - to those, who with their inventive and industrial skill, have provided the ways and methods and the myriads of appliances through which electricity is made available for every purpose - and to the public to whom electricity is ever becoming a more useful and effi-
